## Summary

Aspiring Full-Stack Developer and B.Tech Computer Science student with hands-on experience building real-world web applications using the MERN stack. Proficient in developing responsive user interfaces, RESTful APIs, secure authentication (JWT), and MongoDB database integration. Passionate about writing clean, maintainable code, solving real-world problems, and continuously learning new technologies. Seeking an entry-level Software Developer or Full-Stack Developer role where I can contribute and grow.

## Experience

### Web Developer Intern, Dizi Global Solution (On-site)

May 2026 – Jul 2026

- Developed responsive and reusable web interfaces using HTML5, CSS3, JavaScript, React.js, and Tailwind CSS, improving user experience across desktop and mobile devices.
- Contributed to the frontend development of the **School Sager SaaS** platform by building reusable React components and responsive UI layouts with Tailwind CSS.
- Designed and developed the complete frontend of the **TravelNaaz** website using HTML, Tailwind CSS, and JavaScript with a focus on performance and responsive design.
- Collaborated with the development team to convert UI/UX designs into pixel-perfect, user-friendly web pages while following clean coding standards and Git-based version control.

## Technical Skills

- Programming:** Java, JavaScript
- Frontend:** HTML5, CSS3, React.js, Tailwind CSS, Bootstrap
- Backend:** Node.js, Express.js, RESTful APIs
- Database:** MongoDB, MySQL
- Tools:** Git, GitHub, Firebase, Postman, VS Code, IntelliJ IDEA

## Projects

### NexTalk – Real-Time Chat Application

Live — GitHub

- Tech Stack:** React.js, Node.js, Express.js, MongoDB, Socket.IO, JWT Authentication, Tailwind CSS.
- Developed a full-stack real-time chat application supporting secure one-to-one messaging with instant communication using Socket.IO.
- Implemented JWT-based authentication, protected routes, and MongoDB for secure user and message management.
- Designed a responsive and modern chat interface using React.js and Tailwind CSS, delivering an intuitive user experience across devices.

### PrepPilot AI – Career & Mock Interview Platform

Live — GitHub

- Tech Stack:** React.js (Vite), Node.js, Express.js, MongoDB Atlas, Google Gemini 2.5 Flash, Tailwind CSS, JWT, PDF-Parser.
- Developed a full-stack AI-powered career platform providing technical mock interviews, ATS resume analysis, personalized career guidance, and job matching.
- Integrated **Google Gemini 2.5 Flash** to generate role-specific technical interview questions, reference answers, career roadmaps, and personalized interview guidance.
- Built an ATS Resume Analyzer with PDF parsing to evaluate keyword density, structural clarity, missing skills, ATS score, and provide actionable resume improvement recommendations.
- Implemented JWT authentication and MongoDB Atlas persistence for user data, interview bookmarks, and personalized career information.

## Education

**Dr. A.P.J. Abdul Kalam Technical University**, B.Tech in Computer Science and Engineering (**CGPA: 8.07/10.0**)  
Aug 2023 – Jul 2027

- Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Computer Networks, Software Engineering.

## Coding Profiles

- LeetCode:** Solved 90+ Data Structures and Algorithms problems and earned the **50 Days Badge**.
- HackerRank:** Achieved **3-Star** rating in SQL.

## Certifications

- Front-End Software Engineering Job Simulation – **Skyscanner (Forage)** 2026
- Java Bootcamp – **LetsUpgrade** 2025
- Microsoft Excel Course – **Coursera** 2025
